

# Emerson™ UVC Light System

Reduces or Prevents Mold Growth on HVAC Coils,  
Allowing For Peak Operating Efficiency. Greatly  
Reduces Bacteria, Viruses, Fungi and Yeast Spores.

#### COMPLETE SYSTEM

Includes ballast, UVC magnetic lamp, magnetic mounting bracket and furnace UVC service label.

#### COVERS MOST APPLICATIONS

Kits available in single and double bulb configuration and in multiple voltages. See back for individual model numbers.

#### QUICK AND EASY TO INSTALL

Use mounting bracket to hold lamp in place for no-hole installation. Or, cut a hole and insert magnetic lamp directly into HVAC ductwork. No screws required.

#### EFFECTIVE UVC TREATMENT ON RETURN-AIR DUCT AND A-COIL LOCATIONS

The Emerson Complete UVC Light System is designed for HVAC air stream disinfection and surface irradiation. The 18-watt single and 36-watt double bulb UVC lamp is a powerful tool for improved indoor air quality. The UVC Light System can be installed in the HVAC ductwork (in either the return or supply side of the furnace or air handler) for airstream disinfection or installed over the A-coil for surface irradiation.

1-Year Limited Warranty

#### DID YOU KNOW?

UV has germicidal properties that make it a trusted disinfectant

UV light inactivates bacteria by altering its DNA
